2 INTRODUCTION:

The Afghanistan Drug Price-monitoring is implemented by the Ministry of Counter Narcotics (MCN) of Afghanistan monthly. The monitoring of drug prices is carried out in selected provinces of Afghanistan since 1994 (18 provinces as of September 2011). The results provide a detailed picture of the prices of opiates.

The price of the opiates contributes towards understanding the opiate economy in Afghanistan and published in the Afghanistan opium survey reports annually.

The price monitoring includes major licit crops and precursor-chemicals. Fresh attempts are made to include the prices of syntactic drugs as well.
